DIN EILIE

Software Developer +972-549247262 | dineilie1997@gmail.com | www.dineilie.com | [LinkedIn/dineilie](http://linkedin.com/dineilie)

Software developer with hands-on experience in crafting and deploying sophisticated web solutions. Currently graduating Computer Science degree, seeking a new challenge in a web development position.

My skills:

- **Front-end:** HTML, CSS, JavaScript, React.js, Vue.js, TailwindCSS, Typescript, Redux, Zustand
- **Back-end:** Node.js, Nest.js, Express.js, PostgreSQL, MySQL, MongoDB, Firebase, Supabase
- **Programming languages:** Typescript, JavaScript, Java, C#, C, C++, Python
- **Frameworks:** Vite.js, Next.js, Nest.js
- **Tools:** Git, GitHub, Postman, Notion

WORK EXPERIENCE

Full Stack Developer   **Apr 2023 - Present**
Freelance, IL

- Developed responsive web applications with React.js, Vue.js, and modern frameworks like TailwindCSS, Vite.js, and Next.js to ensure a seamless user experience.
- Integrated REST APIs and maintained backend services using Node.js, Express.js, Nest.js, Prisma, MySQL, and PostgreSQL.
- Collaborated closely with a UX/UI designer for optimal and appealing user experience.

Software Development Internship   **Feb 2024 – Jul 2024**
Microsoft, IL

- Developed "Fitter," a sports web app that connects users to local sports events/groups using React.js, Redux, MaterialUI, Django, Supabase (PostgreSQL cloud service), and Google API.

IT Administrator   **Oct 2018 - Jul 2021**
Menora Mivtachim Ltd, Ramat Gan, IL

- Developed bug-fixing tools with AutoIt and PowerShell, resulting in a significant reduction in technical response time.
- Automated endpoint security updates, ensuring continuous operational efficiency using IBM BigFix.
- Creating VMware vSphere virtual environments, accelerating sales center operations, and contributing to improved overall performance.

EDUCATION

B.Sc Computer Science | *The Open University*   **Aug 2020 - Aug 2024 (Expected)**

- Data Structures, Algorithms, Java development, Systems Engineering, Operating Systems and AI development.

Full Stack Development | *The External Studies Institute*   **Dec 2022 - Jan 2024**

- **Front-end** development (e.g., HTML, CSS, JavaScript, React.js, Typescript, and TailwindCSS).
- **Back-end** development skills and frameworks (e.g., Node.js, Express.js, MongoDB, PostgreSQL).

PROJECTS

- **Real Estate Service - Olyo**   Live View
  Collaborated with a senior full-stack developer to design and develop a new backend and back-office system for a real estate service. Developed the backend using Nest.js with Prisma and MySQL, implementing JWT for authentication, and Vue.js for frontend.
- **Gaming Website - MapleBGU**   Live View
  Developed a responsive web application for an online gaming server, using React.js, Typescript, TailwindCSS, and Vite.js while also maintaining back-end operations such as registration and database communications.
